

Safety Committee Meeting Minutes
08/14/2024

Meeting called to order at: 1806

Members Present: Dandeneau, Parvin. Peterson, Parvin, Miles, Veit

Communications: None

Old Business: None

New Business: Conflagrations; The Committee discussed the potential hazards associated with fatigued apparatus operators. Deployed personnel should explore options such as rotating A/O's as needed while traveling to and from deployments, in addition we encourage that crews communicate with each other while deployed in regard to fatigue. It was also discussed that District members that deploy on conflagration on apparatus not owned by the district need to become familiar with the apparatus and crew they are deploying with to ensure effective communication and safety.

The district has received notice of award from the AFG (FEMA) grant program. The scope of the project includes new PPE extractors/dryers and automatic cleaning solution dispensing systems. Once more information about the system is obtained work will need to be done to evaluate the level of training district members will need to safely and effectively operate the new system.

Round Table:

Injury Reports: None

Accident Reports: None

Exposure Reports: None

Next meeting will be held September 4th at 1800

Meeting adjourned at 1845

Respectfully Submitted,

Keith Veit

Secretary - Chairman
